# A Stitch in Time

Effective January 2, 2008, SkinCeuticals will be implementing a price increase, which we, unfortunately, will need to pass along to our patients. This is only the 2nd increase in the history of the company, and is a result of continued changes in the cost of materials, manufacturing and clinical research.

Historically, Allergan, the makers of Botox®, also increases prices in early January. We have not yet received official word of this, but expect that we will soon have to raise our prices accordingly.

**Call, email or come by the office prior to December 31st to stock up on your favorite SkinCeuticals products before the price increase takes effect!!**

**We offer state-of-the-art Plastic & Reconstructive surgery services:**

- Abdominoplasty
- Botox®
- Brachioplasty
- Breast Reduction
- Breast Augmentation
- Breast Lift
- Brow Lift
- Eyelid Surgery
- Fat Injection
- JuveDerm™
- Liposuction
- Neck Lift
- Otoplasty (Ear pinning)
- Restylane®
- Radiesse®
- Thigh Lift

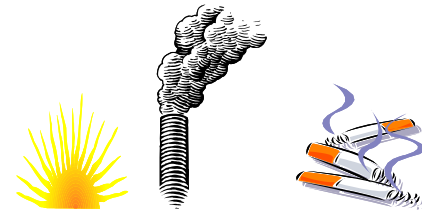

**Did you know...**  
All animals make their own vitamin C, except for humans, fruit-eating bats and guinea pigs!!

 (so... since you presumably fall into this category...you need to supplement!)

**Watch for “Radiesse Discount Day” coming soon...**

## “C” is for Change

Exposure to environmental elements such as sunlight, cigarette smoke and pollution create “free radicals”, which cause a depletion of Vitamin C in the skin. This results in accelerated aging of the skin, along with irregular pigmentation, lines, wrinkles and even contributes to skin cancer.

Topical Vitamin C application is *the most* effective way to significantly restore the skin levels of this powerful antioxidant. Topical treatments provide a much higher concentration in the skin than oral nutritional supplements can, and once topical solutions are absorbed into the skin, they cannot be washed off, providing even greater protection over the course of consecutive days.

*SkinCeuticals* Vitamin C products directly stimulate collagen production and reduce the appearance of fine lines and wrinkles, neutralize free radicals and protect against UV rays and environmental damage.

**In January & February only:**

**Save 20% off  
SkinCeuticals  
CE Ferulic  
Or  
Serum 10  
Vitamin C products**
