

A Stitch in Time

Dear Faithful Patient,
It is with a heavy heart that I write this letter to all of you. After 9 1/2 years with Dr. Shenko, I have decided to put my medical career on hold to better care for my young daughter who will be entering kindergarten in the Fall. I will be in the office for a small amount of time on Mondays until the end of March, and unsure of my office involvement after that.

Doreen Hall will resume her tenure here in early March. Some of you might remember Doreen from our "previous life" on Salisbury St. She is back and better than ever! I have the utmost confidence that Doreen will continue to care for all of you with the same amount of care and compassion that I pride myself on.

I thank you all for many years of good times and I have learned countless life lessons along the way.
Sincerely,

Karin Rokicki, Medical Asst, Patient Coordinator

Luck of the Eye-rish

After years of daily sun exposure, pollution, poor diet, etc. the skin begins to change and may show signs of aging as early as your late 20's! The eyes are often the first part of the face to show this change...baggy lids, crows feet and dark circles plague the best of us. Taking special care of the lower eyelids is easy and can provide a dramatic improvement in the way you look and feel.

SkinCeuticals Eye Balm is formulated to stimulate collagen, smooth fine lines and boost the skin's ability to repair damage caused by sunlight, pollution, and loss of moisture as we age. Best for mature, dry skin. Contains soy, vitamin E and natural anti-inflammatory agents. **\$59.00**

VIVITÉ® Revitalizing Eye Cream is specially formulated to reduce and prevent the appearance of fine lines and wrinkles in the sensitive areas around the eye, as well as minimize the appearance of dark circles. Great to combat the earlier signs of aging, contains 10% glycolic compound. **\$55.00**

Sale prices effective March 1, 2008 thru April 30, 2008

In light of the recent negative press associated with Botox®, we would like to clarify a couple of things:

1. You can rest assured that Dr Shenko purchases Botox® Cosmetic *only* from Allergan, the manufacturer of Botox®, and not any "discount pharmaceutical company" or any other source.
2. The negative reactions associated with Botox® have been related to high doses for therapeutic use, rather than cosmetic. Those patients have multiple medical problems and tend to receive other drugs in addition to Botox during their treatment.

Visit www.allergan.com for more information regarding the safety and effectiveness of Botox®
